

MEMORANDUM

State of Alaska

Department of Transportation and Public Facilities
Statewide Design and Engineering Services Division

TO: DISTRIBUTION

DATE: October 29, 2001

FILE NO:

TELEPHONE NO: 465-2960

FAX NUMBER: 465-2460

TEXT TELEPHONE: 465-3652

FROM: Michael L. Downing, P.E.
Chief Engineer

SUBJECT: New Erosion and Sediment
Control Plan Direction

To comply with current Federal and State requirements please make the following changes. Use guidance contained in the changes in all contracts advertised on or after February 1, 2002.

1. Replace the current Alaska Highway Preconstruction Manual (PCM) Section 450.60, Erosion & Sediment Control Plan, with the attached Section 450.60, Erosion and Sediment Control Plan.
2. Add attached new Section 1120.06, Erosion and Sediment Control Plan, to the PCM.
3. Replace the current Chapter 16 of the Alaska Highway Drainage Manual (HDM) with the attached Chapter 16.

The attached sections 450.60 and 1120.06 use metric units. Conversion of the entire PCM from Metric to U.S. Standard units is currently being completed. Sections 450.60 and 1120.06 will be issued in U.S. Standard units with the converted PCM.

The HDM is currently in U.S. Standard units and the attached Chapter 16 of the HDM therefore uses U.S. Standard units.
